**Subject:** Information for Ag Counselor to the Administrator--looking for in put by Thursday, if you can...  
**Attachments:** InfoAgCounselAdmin\_Pesticides Section.docx

All,

I've attached a draft document to use for briefing the new Agriculture Counselor to the Administrator (we don't know how it is yet). We were asked to provide information in 3 areas: 1) upcoming ag-related meetings; 2) hot topics, and; 3) partnership examples/success stories. I also added some very generally agricultural stats for each state.

There are some obvious holes in this version (Katy, Fabi, we need something on the Certification Rule). I'm hoping you might have a few minutes to read it and let me know if I've left out something big. Also, if you could help with details on any of the items where they are lacking that would be great (e.g., the Hawaii WPS cases). I need to get this to Amy by the end of the week. I have checked in with our states and have only heard back from Jack Peterson.

This is our pesticide view of agriculture. Air and Water will be preparing similar documents.

Regards,  
Patti
